These procedures are based on the principle that the business of the Federal Government is vital to serving the public everywhere, and the safety of the NIH employees, their families, and the NIH Childcare staff must not be compromised.

The NIH Childcare Centers designate emergency employees who are critical to their center’s operations in the event of a modified opening or closure situation. The designation of emergency employees may vary according to the specific nature of an exigency. Such designations are: incorporated in each center’s modified hours of operation policy, included in each center’s Parent Handbook, and posted in each childcare center.
