

DVR Pharmacy medications and supplies available for purchase under the DOD contract

Dear valued customers, please continue to submit purchase requests to the DVR Pharmacy for pharmacy medication items. If the item requested is not able to be ordered, pharmacy staff will notify the requester to order the item from their lab's purchasing agent. The pharmacy will continue to cover all items available on the DoD contract. This includes prescription medications and most standard over-the-counter pharmacy medications used in cell culture, or in animals listed on approved protocols. Please see a list of standard over-the-counter items the DVR Pharmacy can provide, below. The pharmacy will continue to supply available IV fluids and IV vitamins since they are prescription items.
